Business Problem

RWDEx training is required for end users to understand and effectively use the platform apps and tools. RWDEx training consists of 3 courses and 29 videos (recorded webinars or voice over PowerPoint). Most of the user interface and functionality have changed in the three years since inception when videos were created. The videos include non-essential content comingled with critical content users need to understand to use the platform effectively and perform the behaviors to fulfill Merck's governance and regulatory obligations. Current state training does not include knowledge checks or other assessments and learners' express confusion in training process. Lastly, the current training configuration creates an additional step to provision access to the RWDEx platform, which causes confusion and presents a barrier to platform access.

Opportunity/ Benefits

The current training content can be modernized to 1. preserve the necessary critical content, 2. include all new updates and enhancements, 3. remove non-essential content, and 4. improve the learning experience. Additionally, there is an opportunity to reinforce the role of this training in the onboarding process. All knowledge checks will be formative and brief. Streamlining access and provisioning in MyLearning will also be addressed. Lastly, revisions will be made to ensure learners know when all training has been completed.

Target Audience

Primary audiences are business owners, study leads, epidemiologists, biostatisticians, and data scientists from diverse groups within MRL, Human Health, and IT. Secondary audiences include Global Services and others throughout the organization. (Over 100,000 employees).

Program Learning Goals

The program will provide learners with role specific learning and resources to augment in the flow-of-work continuous learning on the effective use of the RWDEx platform application and tools. User goals include behaviors such as: Insight Users can view SS dashboards; CDS Users can query datasets from Cohort Insights and focus on SS Apps, and QDS users can utilize the full extent of the platform for their needs.

Performance Outcomes

RWDEx users will effectively demonstrate an appreciation for the sensitive nature of the data available on the platform, and *perform the behaviors required* for Merck to fulfill its stewardship obligations to vendors and patients the data represents.

Key Performance Indicators

1. Maintain Course Completion: 100% MyL course completion for all user roles on first time through course
2. Decrease Multiple Unnecessary Service Tickets: The number of platform-related ServiceNow tickets
3. Improve Analysis Wizard Record: The number of studies registered per month (including audience metrics)
4. Increase Database Queries: The number of queries run against a dataset (measure and assess with goal to increase numbers)
5. Increase Platform Users: Total Users vs Active Users (Total Users = active and inactive; goal of 3000+ by end of 2023).

Learner Journey

Measurement Strategy

Overall Measurement Strategy

- Obtain necessary metrics while avoiding evaluation fatigue
- Take advantage of measurement solutions built into existing learning solutions (if applicable)

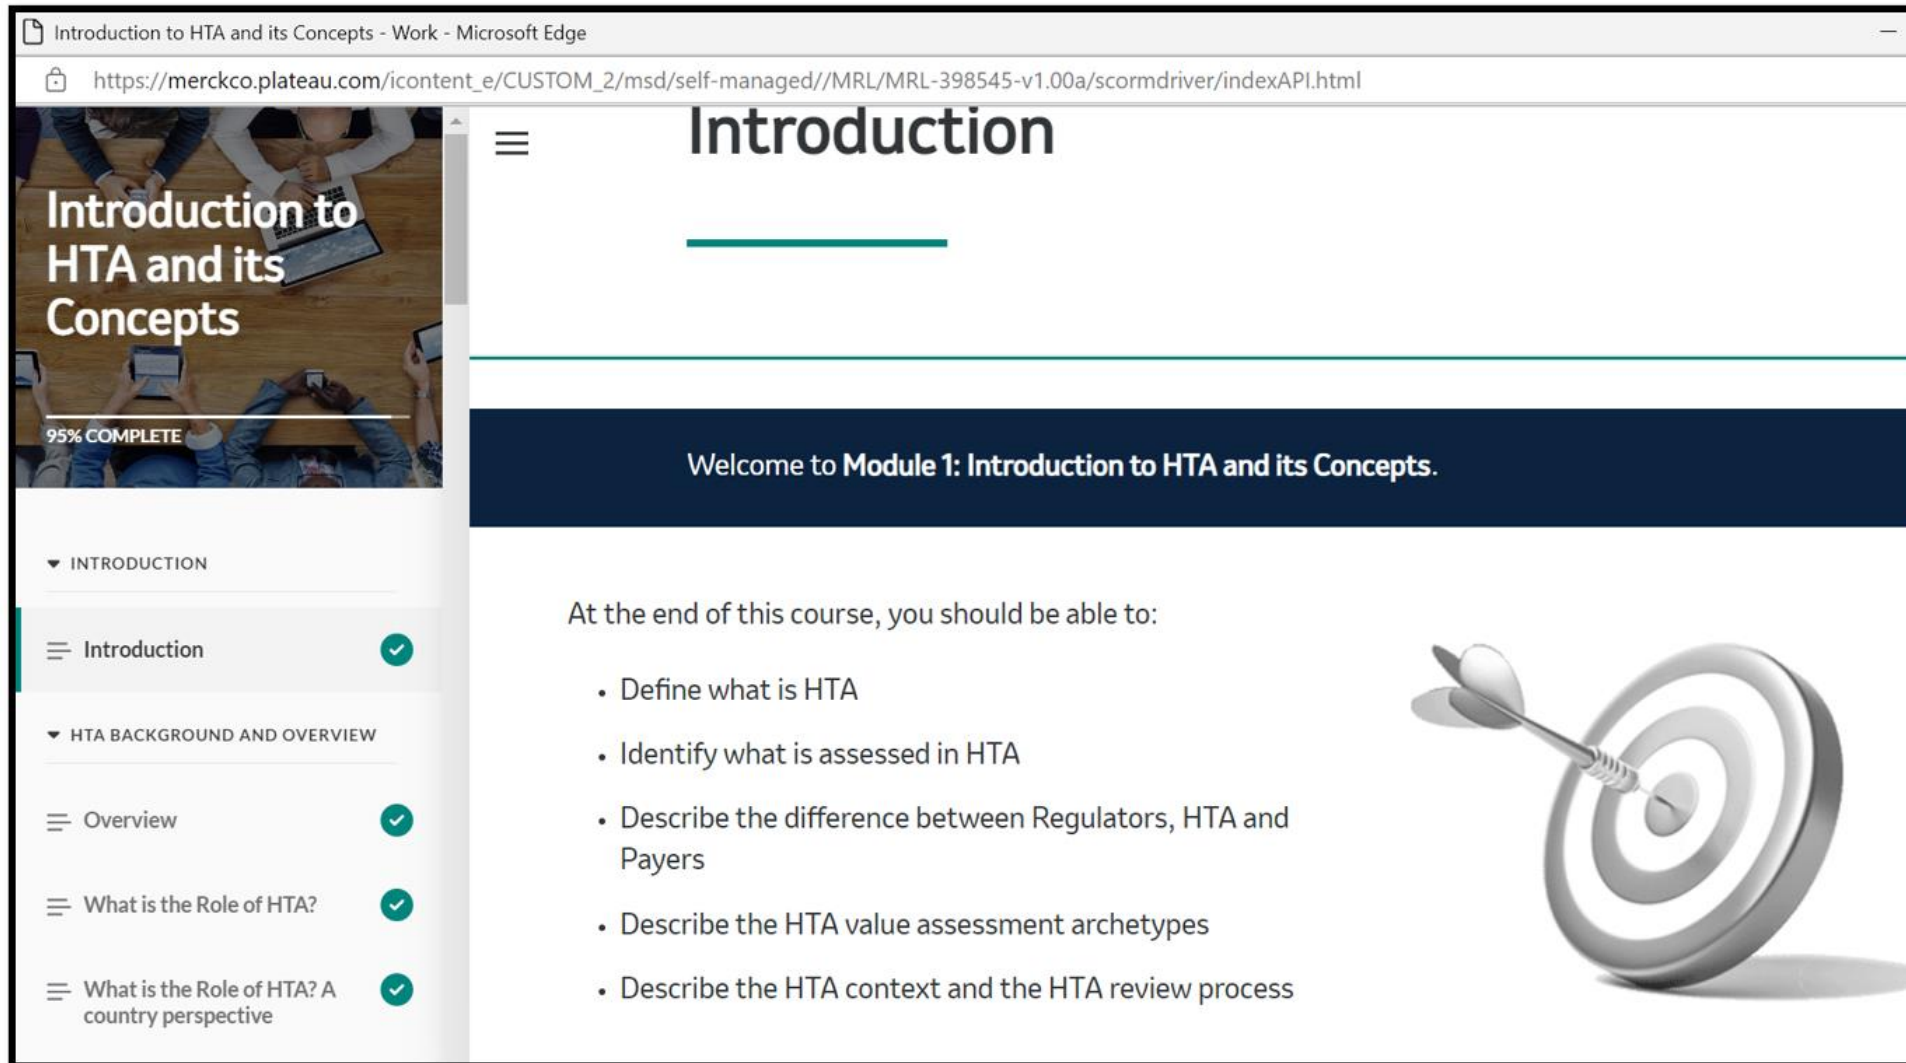

EVAL TYPE	WHAT	HOW	WHEN	TARGET
Experience/ Engagement (Required)	Did we enable a positive and consistent learner experience that fosters learner engagement?	Deploying Standard GL&D Experience and Engagement Survey	At completion of learning module	~85% = agree or strongly agree NPS = >60
Learning Knowledge (Required, but doesn't have to be formal exam, can be informal knowledge checks)	Did the employee learn what they needed to learn?	Knowledge checks in module: 1. RWDEx Role Specific Learning	Knowledge checks at the end of each module	80% minimum score to pass
	Did behavior shift <u>as a result of</u> the learning experience?	1. Survey to determine feedback post training (regarding training experience)	1. After completion of training	1. Positive feedback
Learning Behavior (only if getting to Apply or higher with Blooms)				
Performance Impact (Business Metrics) -data provided by business	How did we enable the business to meet its strategic business goals by improving individual and team performance?	<ol style="list-style-type: none"> 100% MyL course completion Decrease in multiple ServiceNow tickets / or direct support emails Improve analysis wizard record Increase database queries Increase in total RWDEx users Increase in active RWDEx users 	<ol style="list-style-type: none"> TBD by Business Monthly or Quarterly Monthly or Quarterly Monthly or Quarterly TBD by Business TBD by Business 	<ol style="list-style-type: none"> 100% completion TBD by Business TBD by Business TBD by Business TBD by Business TBD by Business

Appendix

This section contains:

- 1. Learning Model Promises & Design Principles*
- 2. Detailed Research*

Example of eLearning:
Rise course (with partial voiceovers): [click here to review the course](https://merckco.plateau.com/icontent_e/CUSTOM_2/msd/self-managed//MRL/MRL-398545-v1.00a/scormdriver/indexAPI.html)

The screenshot shows a web browser window displaying an eLearning course. The browser title is "Introduction to HTA and its Concepts - Work - Microsoft Edge" and the URL is "https://merckco.plateau.com/icontent_e/CUSTOM_2/msd/self-managed//MRL/MRL-398545-v1.00a/scormdriver/indexAPI.html". The course content is titled "Introduction" and includes a progress indicator "95% COMPLETE". A navigation menu on the left lists the following sections: "INTRODUCTION", "Introduction" (checked), "HTA BACKGROUND AND OVERVIEW", "Overview" (checked), "What is the Role of HTA?" (checked), and "What is the Role of HTA? A country perspective" (checked). The main content area displays the text "Welcome to **Module 1: Introduction to HTA and its Concepts.**" and a list of learning objectives: "At the end of this course, you should be able to:" followed by five bullet points. A 3D illustration of a dart hitting the bullseye of a target is positioned to the right of the list. The bottom right corner of the page features the text "INVENTING FOR LIFE".

Introduction to HTA and its Concepts

95% COMPLETE

HTA BACKGROUND AND OVERVIEW

Overview ✓

What is the Role of HTA? ✓

What is the Role of HTA? A country perspective ✓

Introduction

Welcome to **Module 1: Introduction to HTA and its Concepts.**

At the end of this course, you should be able to:

- Define what is HTA
- Identify what is assessed in HTA
- Describe the difference between Regulators, HTA and Payers
- Describe the HTA value assessment archetypes
- Describe the HTA context and the HTA review process

INVENTING FOR LIFE

Example of eLearning:
Storyline course with a voiceover: [click here to review the course](#)

The screenshot shows a video player interface for an eLearning course. At the top left, there is a hamburger menu icon. The video content area has a dark blue header with the 'INVENTING FOR LIFE' logo, the 'GL&D' logo, and the title 'Distribution and Logistics: Roles and Responsibilities'. Below the header, the text reads: 'Welcome to the **Distribution and Logistics: Roles and Responsibilities** course! This course will elaborate on:'. The central graphic is a world map with five circular callouts connected by green lines, each containing an illustration of a logistics-related activity: a smartphone with a location pin, a warehouse with a forklift, a worker at a conveyor belt, a worker with a pallet, and a city skyline with a drone. On the right side of the video frame, there are control icons for a menu, a back arrow, and a play button. At the bottom of the video frame, the progress indicator shows '01 / 25'. Below the video player, there is a standard video control bar with a play/pause button, a progress slider, a refresh button, a volume icon, and a settings gear icon. The 'INVENTING FOR LIFE' logo is also present in the bottom right corner of the overall slide.
